

Dicamba License on Custom App Sheet

Last Modified on 01/09/2023 10:58 am CST

Q. As a company that custom applies Dicamba products for post applications, we need to be able to print the custom applicator's Dicamba license number and the date of training on the Custom Application sheet.

A. A Dicamba License # and Training Date may be entered for an Applicator at Hub / Setup / Applicators.

The screenshot shows a software window titled "Add Applicators Information". The form contains the following fields and controls:

- ID: [Text Input] Inactive
- First Name: [Text Input] Last Name: [Text Input]
- Address 1: [Text Input]
- Address 2: [Text Input]
- City: [Text Input] State: [Dropdown] Zip: [Text Input]
- Phone: [Text Input] Phone2: [Text Input]
- Birth Date: [Date Picker]
- App License #: [Text Input] App. Lic.: [Date Picker]
- Dicamba License #: [Text Input] Training Date: [Date Picker]** (This row is highlighted with a red box)
- Last Drug Test: [Date Picker] Last Physical: [Date Picker]
- CDL License: [Text Input] CDL Lic. Exp.: [Date Picker]
- Comments: [Text Area]
- Email Address: [Text Input] Type: [Dropdown]
- Location: [Dropdown]
- Radio buttons: Agronomy, Energy, All
- Buttons: Save, Cancel

When an applicator with this information completed is selected in the applicator grid found in the *Additional Info* area of the Blend Ticket, this license information prints on the *Individual* or *Combined* formats of the Custom Application document.

The screenshot shows the 'Add Blend Ticket # 209' window with various input fields for customer, field, and product information. The 'Additional Info...' button is highlighted with a red box.

Note: To print the Dicamba line on the Custom App Sheet regardless of whether the information is completed on the applicator file or not, an *Always Print Dicamba Label* preference is available at *Blending / Setup / Location Preferences / Custom App Sheet*.

The screenshot shows the 'Blending/Planning Preferences For Location: Main' window. The 'Always Print Dicamba Label' checkbox is highlighted with a red box.

Selecting this option prints a Dicamba label on the Custom App Sheet and includes the applicable license number and date or a blank line if the number and date are unavailable.
