

SKY Recs Report

Last Modified on 07/08/2026 8:38 am CDT

The SKY Recs Report provides Growers an overview of fertilizer or planting plans with rates, total product used, and associated application costs.

1. Navigate to *Reports* and select the *SKY Soil Type Map Report*.

1. Select Report:

- ☐ Sky Application Report
- ☐ Sky Crop Planning Report
- ☐ Sky Recs Report
- ☐ Sky Scouting Detail
- ☐ Sky Scouting Report
- ☐ Sky Soil Test Report
- ☒ Sky Soil Type Map
- ☐ Sky Yield Map

2. Select the desired Field(s).

Note: Multiple Fields can be selected and will display on a single report. To print one Field per page, select a single Field.

3. Choose the appropriate season from the *Season* drop-down under *Options*.

2. Options:

★ Season:
2020

Crop

Start Date

End Date

★ Basemap:
Imagery with Labels

☐ Custom Imagery

☐ Overview Map

☐ Product Rec

☐ Guaranteed Analysis

Create Report

4. Select the desired Basemap imagery from the *Basemap* drop-down.

5. Optionally select the following report criteria:

- **Start / End Date** – Choose to include only Recs within the selected date range.
- **Custom Imagery** – Select if custom drone imagery has been imported for the chosen Field.
- **Overview Map** – Select to add a boundary overview of the field to the report.

6. Once all desired report criteria are selected, choose **Create Report**.

Note: If no Recs are available per the report criteria selected, a warning message displays and the report fails

to run.

- The report displays in the *Reports Based on Field Selection* grid with a *Status of In Progress*. Choose **View Report** to open the report.
