Update Scale Ticket Information - Grain

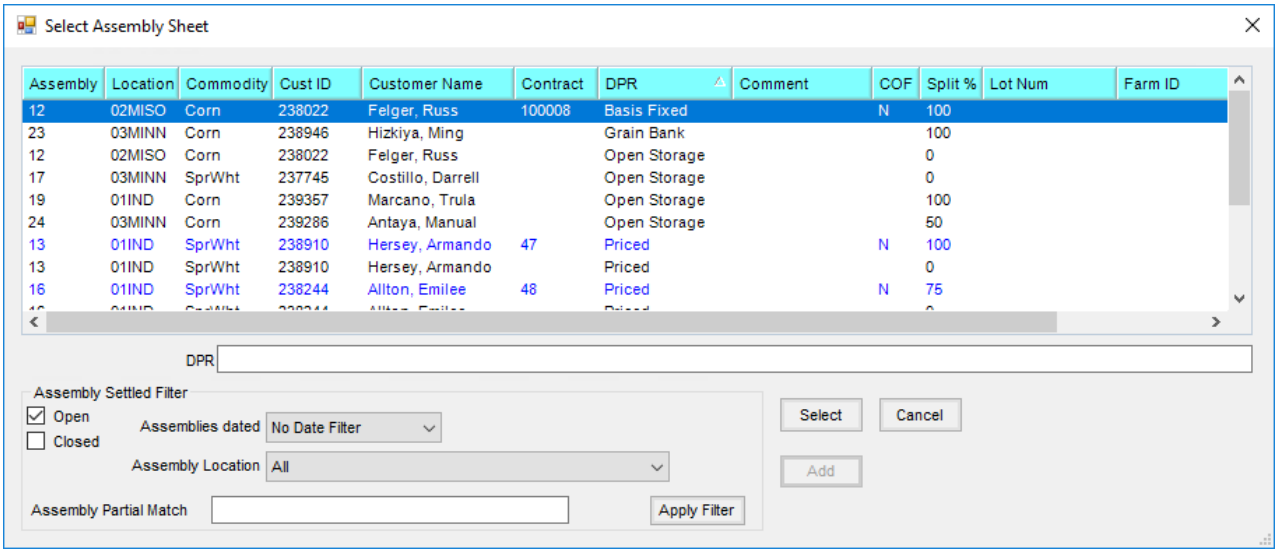

Last Modified on 11/04/2026 10:17 am CST

Standard Grain Only

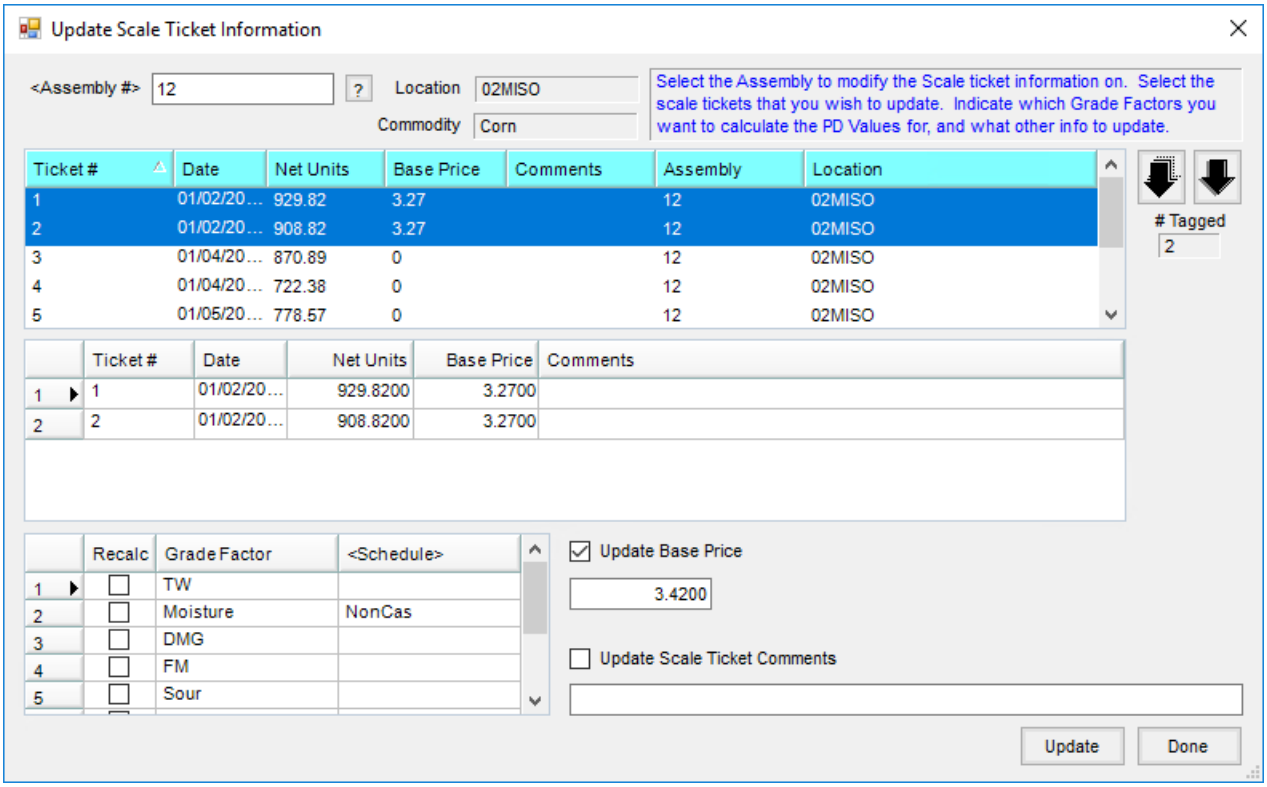

The Scale Ticket price can be updated using the Update Scale Ticket Information utility.

This process can be used to quickly update any Scale Ticket(s) on an Assembly with new information.

Go to *Grain / Utilities / Update Scale Ticket Information*. Select the Assembly with the Scale Ticket(s) needing updated.

Select the Scale Ticket(s) needing updated. Double-click the tickets individually, use the **Shadowed Arrow** button (to update Scale Ticket information for all Scale Tickets in the top area), or highlight the desired Scale Tickets and use the **Single Arrow**. These tickets will then appear in the middle grid.

Check the *Recalc* box for the Grade Factor(s) to recalculate and select a Premium/Discount Schedule to apply.

Update Base Price can be checked and a price entered to apply an updated base price to the Scale Tickets. Optionally check the option to *Update Scale Ticket Comments* and enter the comments in the designated field.

Select **Update** to update the Scale Ticket(s) with this new information.
