Setup of Grain Document Counters

Last Modified on 11/01/2024 1:50 pm CDT

If *Use Global Number* is checked, each Location will use the same numbering sequence on that document. If the numbers had previously been set up by Location, look at what the last document number was to make sure the number will be accurate.

Setup Document Counters

WARNING! Do not save these counters when anyone is making transactions that would update them.

Document Type	Use Global Number	Last Document Number	Auto-number Document	Location Counter
Purchase Contract	☑	1001	☑	Set Location Counter
Assembly Sheet	☐	0	☐	Set Location Counter
Shipment	☑	361	☑	Set Location Counter
Settlement Number	☐	0	☑	Set Location Counter
Sales Contract	☑	4506	☑	Set Location Counter
Warehouse Receipt	☐	0	☐	Set Location Counter

☐ Unpriced Purchase Contracts use Settlement DPR Counters   [Print Counters]   [Save]   [Cancel]

1. Check *Use Global Numbers* for the categories that will be global counters.

2. Enter the *Last Document Number.*

3. Check *Auto-number Document* to allow Agvance to populate the document number each time a new document is created.

The Document Counters can also be set up per Location. In this case, each Location will have its own numbering sequence per document type.

1. Select **Set Location Counter** on the *Setup Document Counters* window for the documents that need to be numbered independently in each Location.

2. Enter the *Last Document Number* used for each Location.

	Location ID	Location Name	Update	Last Document Number	Auto-number Document
1 ▶	00MAIN	SSI Farm Services - IL	☑	9	☑
2	01IND	SSI Farm Services - IN	☑	61	☑
3	02MISO	SSI Farm Services - MO	☑	100011	☑
4	03MINN	SSI Farm Services - MN	☑	500009	☑
5	04STIN	SSI Farm Services - Store IN	☑	0	☐
6	05STIL	SSI Farm Services - Store IL	☑	0	☐
7	zMast	zMast - MASTER PRODUCT LOCATION ONLY	☑	0	☐
