Assigning Grade Factors

Last Modified on 02/10/2025 9:13 am CST

Grade Factors can be assigned to all Scale Tickets associated with an Assembly.

The **Assign Grade Factor Result** button on the *Assembly Sheet* window looks for Scale Tickets associated with the Assembly and will change the Grade Factor results to be the same on each Scale Ticket.

1. Select Assign Grade Factor Result on the Assembly Sheet.

Edit an	Assemb	ly Sheet

- 2. Select the Grade Factor that needs to have the results reassigned.
 - All of the Grade Factors that are currently associated with the Commodity will be listed.
 - A Grade Factor that is not on a Scale Ticket can be chosen but will not be applied to the Scale Ticket(s) not associated with this Grade Factor.
- 3. Enter the new Grade Factor result.

4. Select Assign.

Premiums/discounts and shrink are recalculated when the Grade Factor is assigned to the Scale Ticket.
