User Security for Grain GL Posting Reports

Last Modified on 11/03/2026 3:56 pm CST

User securities can be set for Grain GL Posting Reports including the Grain Purchase Report, Grain Purchase Report – By Chk #, and Grain Storage Report.

Navigate to *Hub / Setup / Users*. Choose **Roles** and edit the desired Role. On the *Window Restrictions* tab under *Program Name*, choose *Agvance Grain*. In the Window Caption section, highlight *GL Posting Reports / Grain GL Posting*. The security settings are found under the *Some Reports Description*. The *Description* accurately describes what option is available and which reports it affects. These options can be set to *View Only* or *Invisible*.
