

User Security for Grain GL Posting Reports

Last Modified on 12/22/2022 9:17 am CST

Q. How do I set user securities for my Grain GL Posting Reports including: Grain Purchase Report, Grain Purchase Report – By Chk #, and Grain Storage Report.

A. The Grain / Grain GL Posting Reports / Grain Purchase Report, Grain Purchase Report – By Chk #, and Grain Storage Report user securities have been added at Hub / Roles / Window Restrictions / Advance Grain / GL Posting Reports / Grain GL Posting. The security settings are found under the Some Reports Description. The Description accurately describes what option is available and which reports it affects. These options can be set to View Only or Invisible.

The screenshot shows the 'Edit a User Role Level 1 Role' window with the 'Window Restrictions' tab selected. The 'Program Name' is 'Advance Grain'. The 'Window Caption' is 'GL Posting Reports / Grain GL Posting'. Below this, a table lists various window restrictions with their IDs and descriptions.

ID	Description
110	Some Reports / All Grain Posted Settlements Option (Grain Purchase Report / Grain Purchase Report - By Chk # / Grain Storage Report)
