

Scale Tickets without a Price

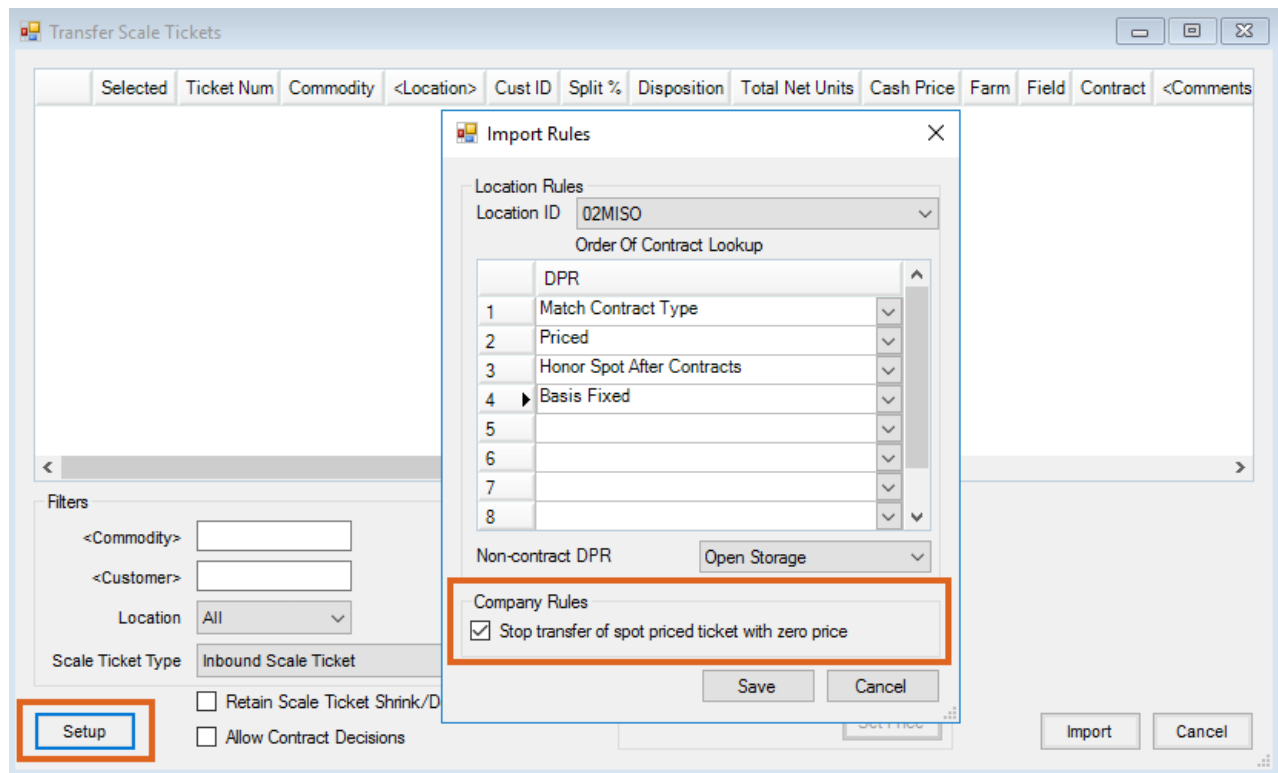

Last Modified on 12/10/2025 2:58 pm CST

Non-contracted Scale Tickets can be prevented from transferring to Grain when spot-priced lines contain a zero or are left blank.

Setup

At *Grain / Operations / Advance Grain Scale Interface / Operations / Review and Transfer Scale Tickets* on the *Transfer Scale Tickets* window, select **Setup**. The *Import Rules* window displays.

On the *Import Rules* window, select the option to *Stop transfer of spot priced ticket with zero price*. Selection of this option applies to the Company and not just a Location and prevents the transfer of a Scale Ticket which has a spot priced line and a blank or zero price. Select **Save**.

With this preference selected, if a Scale Ticket has *DPR* set to *Priced* and the *Action* set to *Spot All* or *Spot After Contracts* and the *Cash Price* is zero or blank, the ticket will not transfer to Grain and is not considered *In Process*.

Select **Save** on the *Edit a Scale Ticket* window.

Review and import the Scale Tickets at *Grain Scale Interface / Operations / Review and Transfer*. On the *Transfer Scale Tickets* window, the tickets display in red and the *Transfer Message* column indicates *This ticket has a zero price and contains a spot price line*. Edit the *Cash Price* to an amount other than zero and the row no longer displays in red. Select **Import** to transfer the tickets to Grain.
