

# Order of the Reports/Tasks Within a Report Agent Batch Run

Last Modified on 03/13/2023 10:04 am CDT

If all of the tasks are in the same Agvance module (e.g. Accounting Reports) then they will work thru in the order they are listed in the batch. However, if there is a mixture of tasks from different modules, it will group the tasks by the projects that they are in and then run each project only once.

For example, if the batch looked like this:

- Task 1, Grain
- Task 2, Accounting Reports
- Task 3, Grain

Report Agent would run the tasks in either this order: 1, 3, 2 or this order: 2, 1, 3.

The code does not specify which project should run first, it just groups the tasks by project.
