

Obtaining the UDID for iOS Devices

Last Modified on 12/22/2022 9:08 am CST

In order to install the Agvance Mobile Sales App on an iDevice, the user must give SSI their UDID.

To obtain the UDID follow these steps:

1. Open iTunes on your computer and plug in your iPhone or iPad.
2. Under *DEVICES* on the left side of the screen, select your device.
3. On the top portion of the screen you should see the serial number for your device. Click on the words *Serial Number*, and it should change to *Identifier (UDID)* followed by a 40 digit ID.
4. Send this ID in an email to the SSI representative you have been working with.
