

No Valid Agvance Login

Last Modified on 09/09/2024 8:09 am CDT

The following error message may display after double-clicking on the Agvance icon and before the login screen appears:

You do not have a valid login for Agvance. Please contact your supervisor for access.

The database may be set to automatically log into Agvance using Windows credentials (preference located at *Hub / Setup / Company Preferences*).

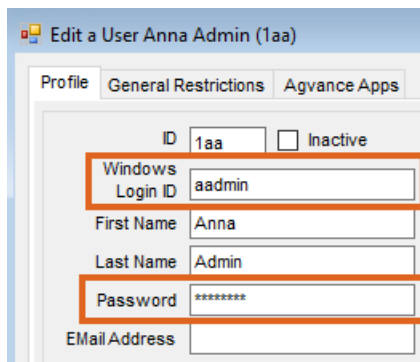

Preferences

General Field Customer Product Farm Grain Scale Interface API

☒ Login Using Windows User ☐ Use ThinPrint Printer Driver

☐ Allow users to login from multiple machines

If the User trying to log into Agvance does not have Windows login information set up at *Hub / Setup / Users*, this error will display. Once the Windows login information is entered, the User can automatically log into Agvance. The password entered here should be the Windows password.
