

# URLs Needed for Access to Common Agvance Web Services

Last Modified on 04/02/2026 1:26 pm CDT

There may be additional URLs to which a user might need access. For example, several interfaces require access to specific URLs. In most cases, these interfaces have a setup area to set up the URL. These may be different for different customers.

To use the Agvance Web Services, access to the following will be needed (at least):

- <http://www.agvance.net/>
- [agvancecrm.com](http://agvancecrm.com)
- [validate.agvance.net](http://validate.agvance.net)
- [errors.agvance.net](http://errors.agvance.net)
- [products.agvance.net](http://products.agvance.net)
- [activate.agvance.net](http://activate.agvance.net)
- [dispatch.agvance.net](http://dispatch.agvance.net)
- [energy.agvance.net](http://energy.agvance.net)
- [api.agvance.net](http://api.agvance.net)
- [googlemaps.agvance.net](http://googlemaps.agvance.net)

Other URLs used throughout Agvance to access expanded functionality:

- <https://www.google.com>
- <https://helpcenter.agvance.net>
- <http://www.gotoassist.com>
- <http://maps.google.com>
- <https://appresources.agvance.net>
- <https://watersgeo.epa.gov>
- <https://s3.amazonaws.com>
- <https://agvanceupdates.s3.amazonaws.com>
- <https://agvanceupdates-magfiler.s3.amazonaws.com>

## URLs Used by Agvance Web Services for Agvance 7.0:

- <http://agvancecrm.com/agvancecrmv700/agvancecrm.asmx>
- <http://validate.agvance.net/agvcustsiteadmintoolswsv700/agvcustsiteaccess.asmx>

- <http://errors.agvance.net/errorswsv700/agvanceerrors.aspx>
- <http://products.agvance.net/agvancemasterproductsv700/productservice.aspx>
- <http://activate.agvance.net/agvactivationv700/service.aspx>
- <https://dispatch.agvance.net/mobiledispatchv700/messaging.aspx>
- <https://energy.agvance.net/agvmobileenergyv700/agvmobileenergy.aspx>
