 All Book #

On the *Select a Booking Option* screen, choose the *Split* option.

The current booking(s) you have selected does not fulfill the total dollars needed for this item. Please select one of the following options below:

SPLIT- Split out the quantity of the line item that is not fulfilled by the selected booking and charge the remaining amount at the current list price.

PARTIAL - Use the booked price for the whole quantity of the item but show an amount due on the ticket for the partial amount not covered by prepay dollars.

The *Split* option splits the Product into two lines. One line is for the available quantity on the Booking at the booked price. The other line is the remaining quantity at List Price or the Customer's default Price Level.
