

Mobile Energy - Split Billing and Prepay

Last Modified on 03/14/2022 4:42 pm CDT

This ticket is split 50/50 between 2 customers who have both prepaid for propane. The gallons left and price per gallon differs for each customer. The first customer has \$100 left in prepay, but this customer's share of the ticket is \$250. As a result, View displays in the Level column, indicating the program requires direction.

Click **Done**. Select the *Split* option to split the lines into one paid line and one unpaid line for the balance.

The current booking(s) you have selected does not fulfill the total dollars needed for this item. Please select one of the following options below:

SPLIT - Split out the quantity of the line item that is not fulfilled by the selected booking and charge the remaining amount at the current list price.

PARTIAL - Use the booked price for the whole quantity of the item but show an amount due on the ticket for the partial amount not covered by prepay dollars.

This product has now been split into 2 lines. This is split for both customers on this ticket. Click **Next** to view the 2nd customer's ticket.
