

Customer Map Dashboard

Last Modified on 03/28/2025 4:31 pm CDT

The Customer Map dashboard honors user restrictions based on Customer Location.

Purpose

This dashboard provides a map view to better understand where all Customers are located, inclusive of the Customer Ship To address. The map will only show Customers who have been geocoded with a Lat/Long in Agvance.

Details

- Choose between Street or Satellite view.
- Hovering over a pin displays additional information like *Customer Name, Location, Address, and Classifications*.
- The address type is indicated by color.
- Zoom in to view details.
- Select the **Filters** button to narrow down Customers.
