Dealer Order Summary Dashboard

Last Modified on 09/23/2024 2:43 pm CDT

The Dealer Order Summary Dashboard shows Dealer Orders at a company-wide level with *Departmental* and *Grower Order Breakdowns* for individual Products. *Grower Order Breakdowns* can also be viewed for each Product by Department.

When the Dealer Order is run in Agvance, the *QTY on Dealer Order* and *Shipped QTY* information is received from the seed Vendor and the columns are updated.

Purpose

The Dealer Order Summary dashboard gives a view of the entire company's seed Longs and Shorts. A Product can be selected to view the detailed breakdown of Departments and Grower Orders. When hovering over the GTIN the Product ID and Product Name associated with the GTIN are displayed.

Details

The dashboard can be filtered by *GTIN*, *Product ID*, *Product Name*, or *Vendor ID* and excludes deleted Bookings.
