Printing Reports for Soil Sampling - SKY Mapping

Last Modified on 11/05/2024 8:51 am CST

Print reports for soil sampling in SKY Mapping.

Sample Bag Labels

1. Select Fields from the Reports menu.

 Check the Sample Bag Labels report. In the Options section, make the desired selections. Under Label Type, Avery 8160 prints 30 labels per page and Avery 6572 prints 15 labels per page. Avery 6572 should be used if adding an Event ID bar code.

1. Select Report:	2. Options:			
Сгор Мар	* Season:		Gran	\sim
Fertilizer Rec Summary	2024	\sim	Crop	*
Harvest Summary	Start Date	Ē	End Date	Ē
Harvest Summary - Multi Season				
Lab Submission Form	* Label Type: Avery 8160 (1" x 2-5/8")	\sim	Lab Account	
Loadsheet		_		
Planting Summary	Start Position			
Product Rec Summary		_		
Profit/Loss Map	Create Report			
✓ Sample Bag Labels				
Soil Sample Results				
Soil Testing Required				

3. Make sure the appropriate Fields are selected, then choose **Create Report**. The report will load in the bottom section and will indicate when the report is ready to be viewed. Additionally, an email will be sent to when the report is done processing.

	Report Type	Custon	ner	Farm	Field	S	Seas	Date) ~	Status
	Sample Bag Labels	Barry A	nderson		North	20	024	11/04/2024 3:44:35 PM		View Report
Select All	Delete Selected	Email Selected	Print Selected	Merge Selected	Download Selected					

SKY Boundary Report

1. Select SKY Mapping from the Reports menu.

2. Check SKY Boundary Report and choose the desired Options to include on the report.

1. Select Report:		2. Options:			
Sky Application Report		* Page Size:		* Basemap:	
✓ Sky Boundary Report		8.5" x 11"	\sim	Imagery with Labels	\sim

Sky Planting Report	1			✓ Lat/Long QR Code	
Sky Planting Summary		Label/Color Options		✓ Lat/Long QR Code	
Sky Recs Report - Application		Original Format			
Sky Recs Report - Planting					
Sky Scouting Detail		Create Report			

- 3. Select Create Report when finished. Once the report has processed, choose View Report.
- 4. Sampling Zones can be added with the editing tools to add zone separation lines and numbers to the map before printing.

- Lines and numbers can be formatted to a preferred font size and color.
- Options to **Print** or **Download** the map are available.
- If using the Mapping mobile app, creating and formatting a boundary map is not necessary. The app will

provide driving directions and show Sampling Zones in real time.
