Helpful Videos and eLearning Opportunities

These educational resources are recommended in the Welcome to Agvance video. View them prior to the kick-off conference call and refer to them at any time in the Help Center **Knowledge Base** section.

General Orientation

- Agvance Hints eLearning

Preparation of Data

Master files are the primary basic elements of Agvance software. Agvance transactions are tied to related master files and can either be imported from your previous business system's data or manually entered by your staff. This video will provide an overview of master files and getting started with Agvance.
