

Linking Customers to SKY Mapping

Last Modified on 07/27/2022 9:30 am CDT

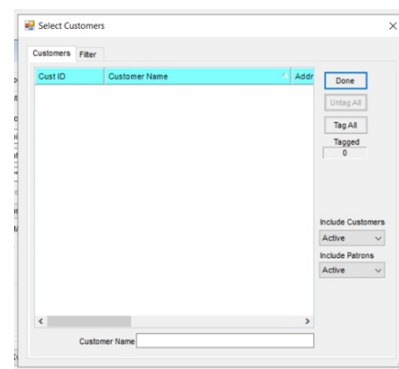

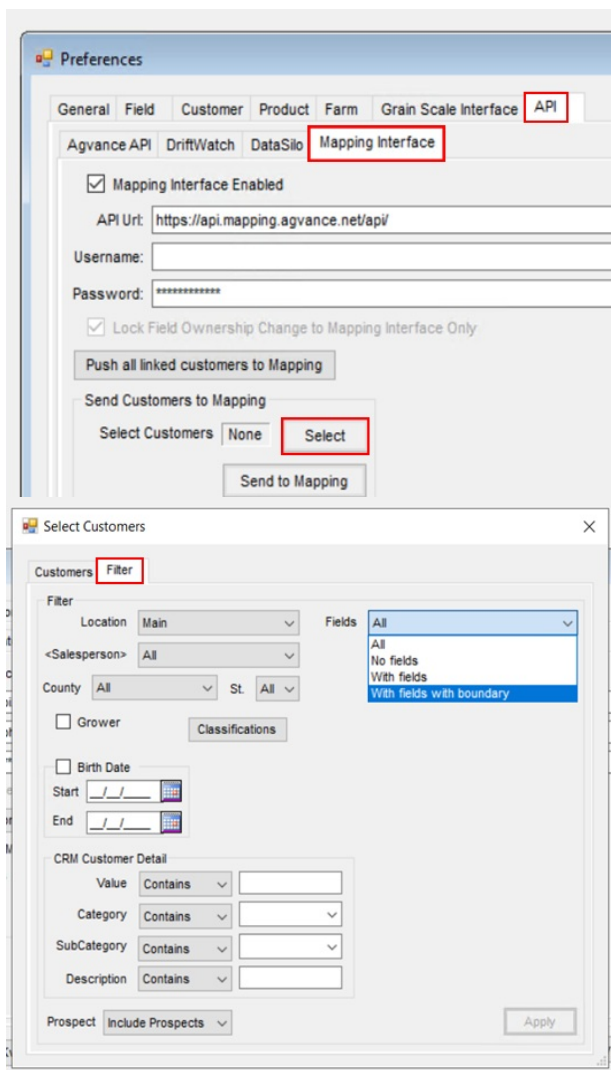

Navigate to the Agvance Hub

- Select the following:
 1. Setup Menu
 2. Company Preferences

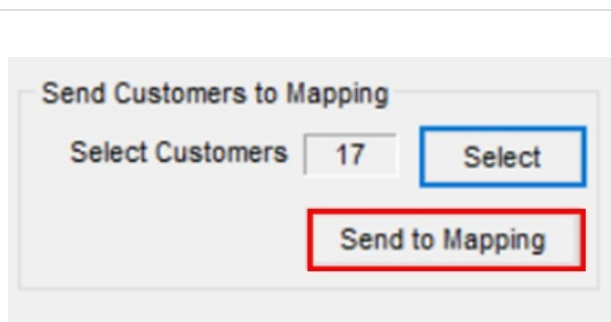

Company Preferences

- Select the API and Mapping Interface Tabs
 - Choose the Select button
 - The Select Customers box will open
 - Use Filters to select the customers that you would like to link to SKY Mapping
 - Click Done

Filters Tab

- The filter tab allows the user to select customers by using common filtering options such as Location, salesperson, county, state etc.
- The Fields Filter will allow the user to select customers:
 - Who have no fields
 - All who have a field
 - All who's fields currently have a boundary present in Agvance Mapping

Customers have been selected to link to SKY Mapping

- Click – Send to Mapping
- Customers will be linked to and present in SKY Mapping
