

Linking Customers to SKY Mapping

Last Modified on 06/18/2026 8:10 am CDT

Follow the instructions below to link Customers to SKY Mapping.

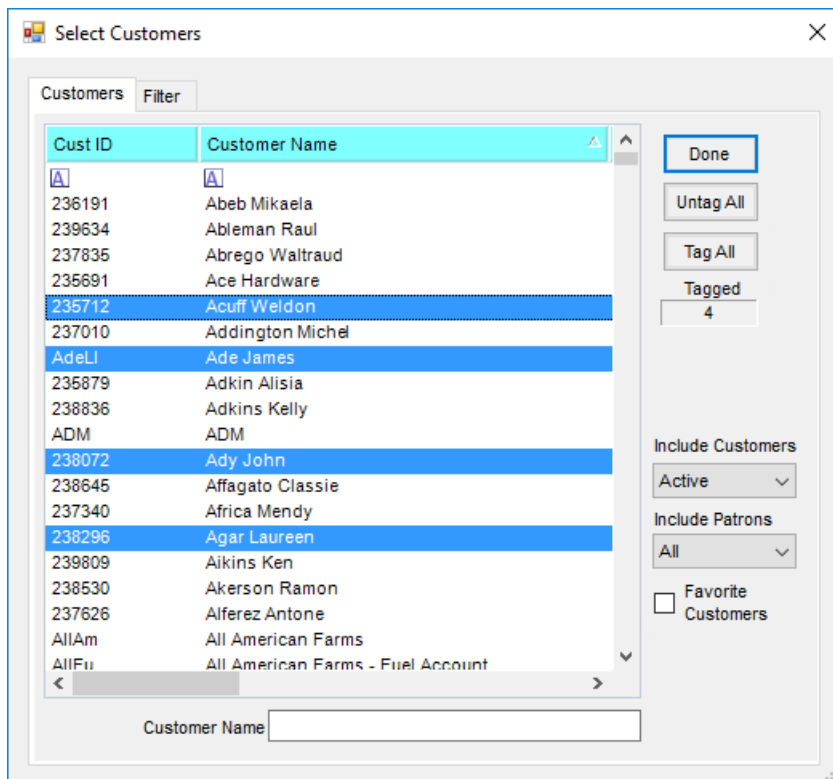

1. Navigate to *Hub / Setup / Company Preferences*.
2. On the *API* tab, go to the *Mapping Interface* tab, then choose **Select**.

3. On the *Select Customers* window, the *Filter* tab can be used to narrow down the list of Customers displayed. With the *Fields* filter, choose to include *All Customers*, only those with *No fields*, only those *With fields*, or only those *With fields with boundary* in Windows Mapping.

4. Highlight the Customers to link to SKY Mapping then choose **Done**.

Note: To highlight nonconsecutive Customers, hold the **Ctrl** key on the keyboard while selecting.

5. Once Customers have been indicated, choose **Send to Mapping** (shown in the image in Step 2). Customers will then be linked to and presented in SKY Mapping.
