Grower360 Energy - Agvance SKY Admin

Last Modified on 07/06/2026 2:36 pm CDT

Select **Setup** on the *Energy* card found at *Agvance SKY Admin / Grower360 / Operations*.

To see a video of Grower360 Setup in Agvance SKY Admin, see **here**.

Turn on the *Refill Requests* toggle to allow Grower360 users to request a refill for tanks. Terms are required in the *Add Propane Tank Refill Terms* section if the *Refill Requests* ability is turned on. These terms will be displayed to the Grower at the *Order* window. Select **Save** once terms have been entered.

Any terms for ordering any Energy Product should be listed here. Any minimum gallon or dollar requirements and information about the ordering process should also be included.

Note: Notifications for Energy Order Requests can be set up in Agvance SKY. See **here** for more information.
