Allow Signature on Save of Invoice

Last Modified on 07/06/2026 9:07 am CDT

Locations with the *Allow Signature on Save of Invoice* box checked found on the *Invoice* tab at *Setup / Location Preferences* will see a **Capture Signature** button on the *Print Invoice Documents* window which allows signatures to be captured and viewed in Agvance Windows, Agvance SKY Customer, and Grower360.

Select **Capture Signature** to trigger a prompt on the signature pad. The captured signature will display on the monitor. Select **OK** to continue.
