1. Go to the sheet to download on the dashboard.
2. Choose **Download** in the bottom right, then choose *PDF*.

   Note: Any filters selected will be honored in the download.
3. Select *Specific sheets from this dashboard* from the *Include* drop-down. Choose the sheet that displays.

4. Optionally change the *Scaling*, *Paper Size*, and/or *Orientation* settings.
5. When finished, select **Download**.
6. The download will show at the bottom of the browser window. Select the file to open the PDF.
