

Nutrient Applied Dashboard

Last Modified on 12/02/2022 8:10 am CST

Purpose

The Nutrients Applied dashboard shows Blend Ticket detail by Product or by total nutrients applied. This information is broken out by Customer, Farm, and Field.

Details

This dashboard honors user restrictions based on login location

The dashboard can be filtered by *Customer Name*, *Farm*, *Field*, *Load Flag* (loaded vs. unloaded), and *Start and End Date* (Blend Ticket date range).
