

# Energy Past Due PDOs Dashboard

Last Modified on 12/19/2022 9:20 am CST

## Purpose

The *Energy Past Due PDOs* tab shows the number of PDOs, the estimated amount of quantity needed, and number of tickets broken out by number of days past due.

The *PDO Details* tab shows the number of tickets and estimated quantity by location and driver. There is a detail section that displays the PDOs and information about the individual PDOs.

This dashboard honors restrictions based on login location.

## Details

Filter by *Completed status, Tank Owner, Driver on Tank, Product ID / Name, Location Selection, and/or Location ID / Name.*
