Agvance SKY User Permissions Dashboard

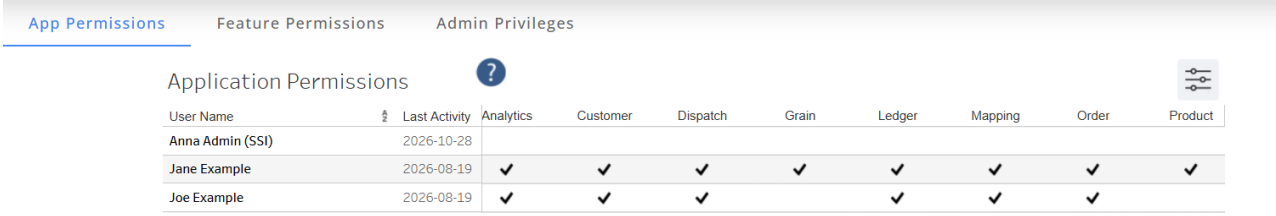

Last Modified on 10/28/2026 3:05 pm CDT

The Agvance SKY User Permissions dashboard shows each Agvance SKY User and their permissions regarding different Agvance SKY apps and features. This information is pulled from Admin. If information shown in the dashboard needs updated, those changes must be made by editing the User.

App Permissions

The *App Permissions* tab lists each User along with the *Last Activity* date and the apps listed across the top. A checkmark in an app column indicates that User has access to the app.

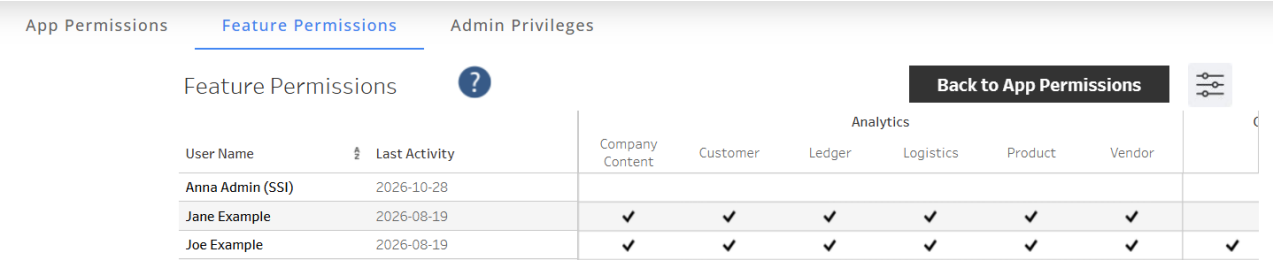

Sort by *User Name* or *Last Activity*. Filters include *Active Status*, *Agvance SKY Application Name*, and *User Name*.

Feature Permissions

The *Feature Permissions* tab lists each User along with all the permissions available for each app. A checkmark indicates that User has that permission enabled.

Sort by *User Name* or *Last Activity*. Filters include *User Name*, *Active Status*, *Group*, and *Permission*.

Admin Privileges

The *Admin Privileges* tab indicates what Admin Privileges a User has like *Company Admin* or *Grower360 Admin*.

Filter by *User Name*, *Active Status*, or *Role*.

App Permissions | Feature Permissions | Admin Privileges

Admin Privileges

User Name	Admin Privileges				
	[No Role]	Analytics Author	Company Admin	Grower 360 Admin	Order Admin
Anna Admin (SSI)		✓	✓	✓	✓
Jane Example			✓	✓	
Joe Example					✓
