

Assembly Sheets - Agvance SKY Grain

Last Modified on 08/27/2026 9:13 am CDT

Assembly Sheets are electronic equivalents to delivery sheets and are established per Location/per Commodity. If delivering to multiple Locations, multiple Assemblies will be needed.

Assemblies are found in Agvance SKY Grain under *Inbound* and are displayed in a [grid](#).

Note: Assemblies are only available to those with the *Assembly Sheets* Role permission enabled in [Agvance SKY Admin](#).

Items per page: 501 of 1

Selecting an **Assembly #** displays view-only information of the Assembly. Action buttons at the far right of the grid give the ability to **Edit** or **Delete** an Assembly. Assembly Sheets cannot be deleted if Scale Tickets are applied.

Multiple Assemblies can be deleted at once by checking the box(es) in the far left corner, choosing the **Ellipsis** on the *Search* bar, and selecting *Delete*.

Note: If *Require Reason for change* is checked in Agvance Windows at *Grain / Setup / Preferences* on the *General* tab, batch delete is unavailable. Deleting single Assemblies will prompt for a *Reason* to be entered before the Assembly will be deleted.

Assembly Sheets can be added by selecting **+ Add Assembly Sheet** in the lower right.

Add Assembly

General Information

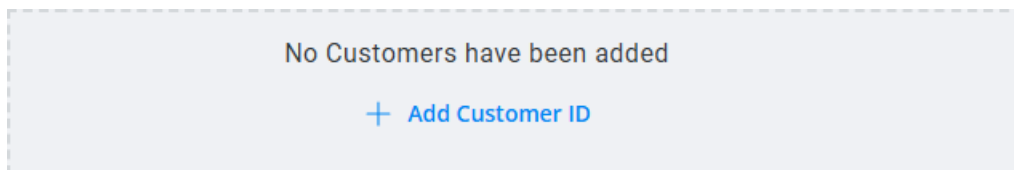

General Information

Assembly Number 30	Location* 01IND	Commodity* Corn	Date Established* 06/05/2026
Farm ID None	Field ID None	☐ Unavailable Prevent additional Scale Tickets from being added	

1. The Assembly Number defaults if auto-numbering is enabled.
2. Indicate the *Location* and *Commodity* from the drop-downs.
3. The *Date Established* defaults as today's date but can be changed if needed.
4. Optionally specify a *Farm ID* and/or *Field ID*.
5. The *Unavailable* checkbox is only enabled when editing an Assembly Sheet and will prevent additional Scale Tickets from being added.

Customer Information

1. Choose + Add Customer ID.

2. Check the Customers to be included in the Assembly, then choose **Select & Close**.

Note: There is no limit to the number of Customers who can be on an Assembly Sheet.

Customer Search

Search by Name or ID...

Select & Close

3. Adjust the *Split %*, indicate the *Disposition*, and update the *Freight %* as needed. A Purchase Contract can be added by selecting the field then choosing the icon to the right of that field. This gives the ability to find and select the appropriate Contract. If applicable, check *Condo YN*. This is used to identify condo storage units. Customers can be removed from the Assembly Sheet by selecting **Remove**.
- Note:** The *Split %* and *Freight %* columns must add up to 100. Totals are provided at the bottom of each column.

Customer Information

Customer...	Name	Split %	Contract	Disposition	Condo YN	Freight %	Remove
AndBa	Barry Anderson	60.0000 %	62	Priced	☐	100.0000 %	Remove
239873	Larry Baker	40.0000 %		Priced	☐	0.0000 %	Remove
Total		100	Total		100		

+ Add Customer ID

Scale Interface Non-Contract DPR Override

Use this area to set the Non-Contract DPR to be used when getting a contract overfill.

Note: Assembly overrides are checked first, then Customers, and finally the company global setting.

1. Choose **+ Add Customer ID** to open the *Customer Search* overlay and find and select the appropriate Customer(s). Alternatively, choose **Copy Customers from Splits** to copy the same Customers/Splits in the *Customer Information* section.

No Customers have been added

+ Add Customer ID Copy Customers from Splits

2. Indicate the *DPR* from the drop-down and optionally **Remove** Customers from this section.

Customer...	Name	DPR	Remove
AndBa	Barry Anderson	Priced	Remove
239873	Larry Baker	Priced	Remove

Additional Information/Comments

Additional Information

Crop Season

Start typing, or select from list.

Lot Number

Default Cash Price

- 1. The *Crop Season* can be manually entered, or choose from the list that displays. The list comes from Crop Seasons previously used on Assembly Sheets.
- 2. A *Lot Number* can be entered manually if needed.
- 3. Optionally enter the *Default Cash Price* for the Assembly.

Comments

Add a Comment

comments

Select Saved Comments

 Clear  Add

- 1. Enter *Comments* in the text field and choose + **Add** to apply the Comment to the Assembly. Use **Clear** to reset the field.
- 2. Choosing **Select Saved Comments** opens a window to choose from a list of previously saved Comments.

Edit Assembly

To edit an Assembly, choose **Edit** in the *Assembly* grid.

☐	Assembly # 	Locatio... 	Commodity ID 	Customer ID 	Customer Name 	Contract 	DPR 	Edit	Delete
	 Filter	 Filter	 Filter	 Filter	 Filter	 Filter	 Filter		
☐	29	01IND	Corn	AndBa	Barry Anderson	987987	Priced Later	 Edit	 Delete
☐	25	02MISO	YPeas	235755	Gary Nunlee	--	Priced Later	 Edit	 Delete

When editing an Assembly, the *Assembly Number* cannot be edited. Additionally, the *Location* and *Commodity* cannot be edited if Scale Tickets are applied to the Assembly Sheet.

The *Unavailable* checkbox (only available when editing) prevents additional Scale Tickets from being added to the Assembly Sheet.

General Information

Assembly Number 29	Location* 01IND	Commodity* Corn	Date Established* 06/05/2026
Farm ID None	Field ID None	☐ Unavailable Prevent additional Scale Tickets from being added	

Usage

The *Usage* tab, available when viewing or editing Assembly Sheets, lists groups of Scale Tickets applied to the Assembly. Expand lines by selecting the > in the far left column. This lists the Scale Tickets along with their *Net Units* and *Units Settled*.

If multiple lines have been expanded, selecting the *Up/Down Arrow* column heading collapses all expanded lines.
