API 7.0.24490 | 11.28.2023

- **FTM-3224 / PUT Customer - Customer Notifications** – The PUT of the customer will now accept the CRM Cust Notify information to be able to replace the list with what is sent in. By default, no information will be changed unless the new list property *CustNotify* is included. When included and not *null,* the existing list for the customer will be cleared and replaced with the values provided.
- **FTM-3568 / POST Customer - Add CRM - Add Attachment** – The POST of a customer can now set the value for the IncludeDocumentAsAttachment part of the CustNotify record.
