

Applicators - SKY Dispatch

Last Modified on 03/31/2026 2:13 pm CDT

Applicators can be viewed/added on the *Apply* tab under *Company Settings*.

Switch between Applicators and Drivers by choosing the **Ellipsis** on the search bar and selecting the appropriate *User Type*.

Add, edit, and deactivate Applicators and/or update Agvance Ops app permissions.

The *Applicator* grid operates much like an Excel spreadsheet. For more on how this grid functions, see [Using Grids in Agvance SKY](#).

Applicator Setup
Add, Edit, Update Permissions, and Deactivate Applicators

Add Applicators

New Applicators can be added by selecting the + icon found in the lower right-hand corner of the window.

1. Select the *User* from the drop-down.

Agvance Sky Account

Select an Agvance Sky Account to link this Applicator to.

Search Users *

Anna Admin ✕

2. Choose the *Agvance Applicator* from the drop-down. This selection cannot be changed after finishing the setup process.

Agvance Applicator

Select the Agvance Applicator to link to the account chosen above.

Agvance Applicator *

RaeAnn Schmidt ✕

This cannot be modified after the setup process

3. Indicate *Permissions* for this Applicator.

Permissions

Select the permissions that this Applicator should have. These will be available to change at any time after the setup process.

- Update Inventory
- Require Conditions
- Edit Ticket
- Capture Signature
- Choose Conditions Profile

Note: The *Choose Conditions Profile* option allows that Applicator to choose the *Available Condition Profile* in

the Agvance Ops app.

4. Indicate the Applicator's Conditions Profile from the drop-down.

Conditions Profile

Select the Applicator's Conditions Profile

Applicator Conditions Profile

5. Choose the Applicator's Location.

Applicator Location

Select the Applicator location

Applicator Location

You have 1 changes in this row and 0 hidden columns Cancel Done

The number of changes being made can be seen below the row being modified. When finished editing, select **Done**.

- **Applicator Alias** – Enter or edit the alias.
- **Vehicle** – Choose the vehicle from the drop-down. Start typing to narrow down the list.
- **Map Icon** – Select the current icon to open the *Update Icon* window. Choose a new icon and select **Save Changes**.

- **Update Inventory** – Checking this box will mark unloaded tickets as *Loaded* and will update inventory amounts when an applicator completes a job.
- **Require Conditions** – With this checked, the applicator will be required to enter all conditions checked in the *Edit Available Conditions* area before completing a job. Those who do not have this turned on will have these conditions available as options but will not be forced to enter conditions checked.
- **Edit Ticket** – With this checked, applicators can change the number of acres and recalculate the total product.
- **Capture Signature** – A signature will be required when completing a job after finalizing conditions when this permission is checked.
- **Choose Conditions Profile** – Applicators with this option checked have the ability to choose the Conditions Profile in the Agvance Ops app.
- **Applicator Location** – Select the Location from the drop-down.
- **Available Conditions Profile** – Choose the Available Conditions Profile from the drop-down. These must already be set up by selecting **Setup Available Conditions Profile** above the grid.
- **Applicator Options** – Hover over the Applicator line to *View Location History*, *Deactivate Applicator*, or *Unassign All Jobs*.

- Applicators cannot be deactivated if active jobs are assigned to them.

Applicator3 Cannot be Deactivated

Applicators cannot be deactivated when they have active jobs assigned to them. Unassign these jobs to deactivate Applicator3.
