API 7.0.25080 | 03.05.2024

- **FTM-3630 / GET Scale Ticket** – A new public GET endpoint to ScaleInterface was added that will allow for the pulling of Agronomy Scale Interface records. This response is limited to 100 records using pagination. Optionally filter by *LastModifiedUTC*, *Ticket Number*, *Location ID*, *Customer ID*, and a ticket *Date Range*.
- **FTM-3624 / Date Format Validator** – The API will now validate the string inputs that are to be dates using the format specified in the help file. This is applicable for any API property with a data validator.
