General Tab in Company Settings - Agvance SKY Dispatch

Last Modified on 07/07/2026 8:42 am CDT

Type of Work Classification

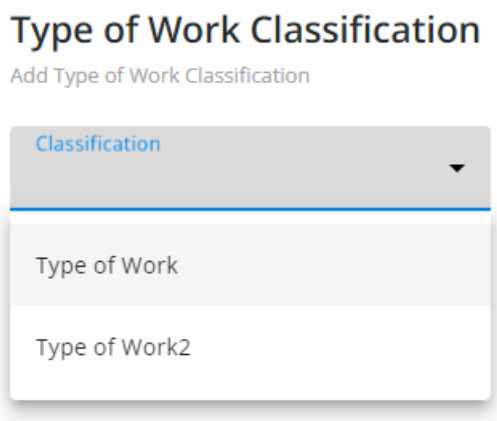

Type of Work Classifications are Inventory Departments included in a Classification such as Dispatch Type of Work. Types of Work can be set up in Agvance Windows by selecting **Department Classifications** on the *Product* tab at *Hub / Setup / Company Preferences*. Choose **Add**, then enter the *Name* of the Department Classification. Double-click the Dept. ID or Department Name heading to choose the necessary service fee departments.

After setup is complete, select **Save**.

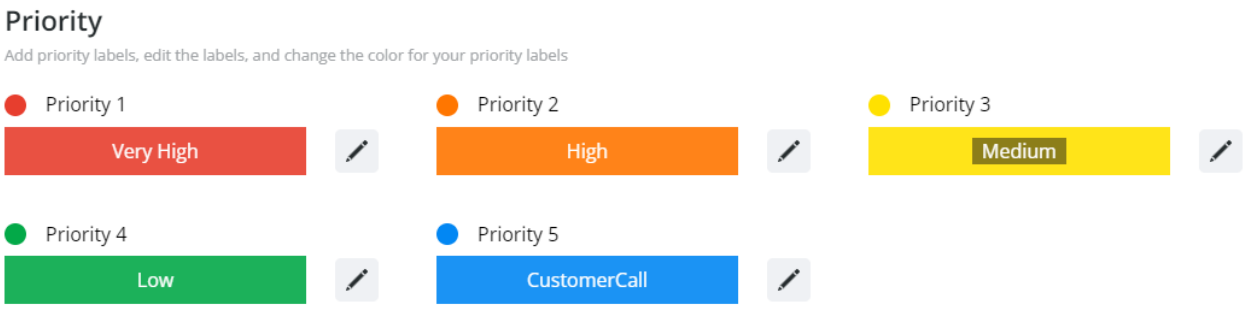

In Agvance SKY Dispatch, choose which Department Classification to use for Types of Work used in Agvance SKY Dispatch.

Note: Only one Classification can be selected at a time.

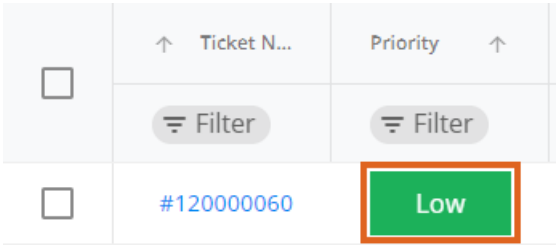

Priority

Add, edit, or change the color for Priority labels. Selecting the **Edit** icon displays the *Edit* window. The priority label must be 6-30 characters long. Select the color for the priority from a pre-defined list of colors.

The Priority will be reflected on the jobs in the *Priority* column.

Map

Change the color of different features displaying on the map:

- Selected Jobs
- Crop Chemistry
- Selected Applicator
- Assigned Jobs
- Driftwatch
- Unassigned Jobs
- Non-Field Features

Select the **Edit** icon to see a preview of the feature on the map and to change the color.
