Grower360 Products - Agvance SKY Admin

Last Modified on 07/06/2026 2:39 pm CDT

Setup and preferences for Product reorder requests in Grower360 can be found at *Agvance SKY Admin / Grower360 / Operations*.

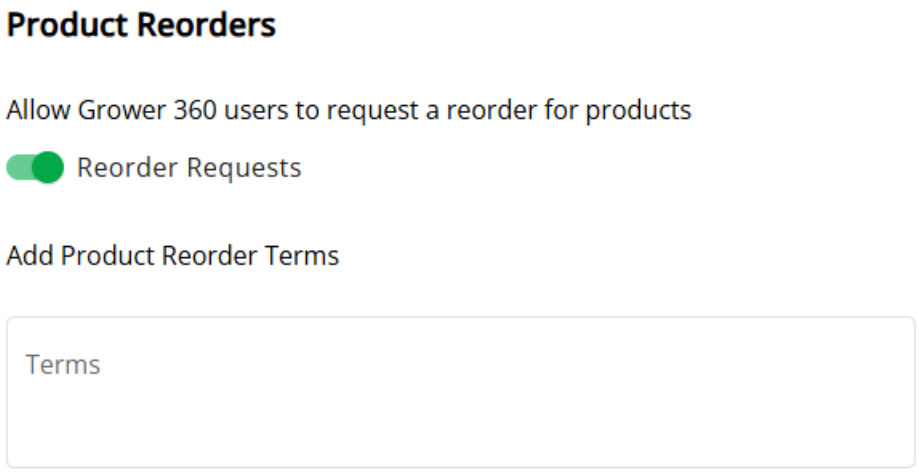

To see a video of Grower360 Setup in Agvance SKY Admin, see **here**.

Once the below areas are populated appropriately, choose **Save**.

Note: To use this function, the *Requested Orders* option must also be enabled under ***Divisions***.

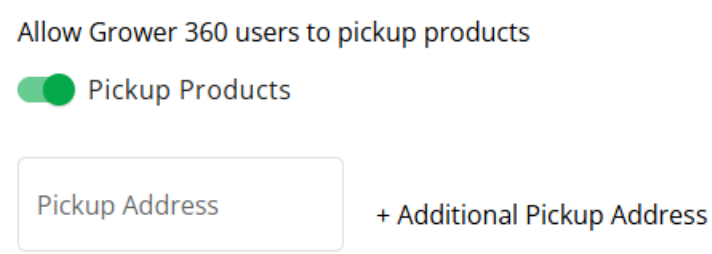

Reorder Requests

To allow Grower360 users to request a reorder for Products, turn on *Reorder Requests*. An area below is available to add applicable terms and will display to the Grower in Grower360 upon submitting a request. Once this area is enabled and saved, a *Requested Orders* menu option will be available in Grower360.

Pickup Products

To allow Grower360 users to pick up Products, turn on *Pickup Products*. Enter the *Pickup Address*. Select **+ Additional Pickup Address** to enter another *Pickup Address*.

Canceling Requests

Optionally allow Grower360 users to cancel a request after it has been *Requested* and/or after it has been *Approved*.
