Supplier eLink Seed Order Management Setup

Last Modified on 06/05/2025 11:43 am CDT

B2B login information, found at B2B Setup / Setup / Seed Orders, is required for each Vendor utilizing the seed order web services. Setup information specific to individual Vendors can be found on the tabs below.

Bayer CropScience

- 1. Within B2B Setup, navigate to Setup / Seed Orders.
- 2. In the Setup Seed Orders window, double-click Vendor to select the appropriate Vendor from the Select Vendors window. Choose **Done**.
- 3. Double-click in the *Logins* column to select the *Agv*. *User* and enter the login information for each User accessing the seed order web services.
- 4. Enter the URL listed below in the corresponding column for the listed web service:

Message	URL
Grower Order Web Service	
Customer Order Summary Web Service	
Product Availability List Web Service	
GChange Log Web Service	https://ewsprd.us.f4f.com/F4FInbound
Farm Manager Web Service	
Grower Order Reconciliation	
Dealer Order Update Web Service	

5. If multiple seed suppliers are being set up, or if multiple suppliers will be utilizing web services in the future,

double-click in the Reconcile Classification column, and select the Product Classification for that Vendor.

🖷 Set	E Setup Seed Orders
