

# Supplier eLink B2B GPOS Export Setup

Last Modified on 12/11/2024 4:20 pm CST

Supplier eLink provides the ability to export Grower Point of Sale (GPOS) information to connected suppliers. Currently, Bayer is the only supplier to offer GPOS web services.

B2B setup and login information are required to utilize the web service.

The screenshot shows a window titled "Setup Grower Point Of Sale" with a close button (X) in the top right corner. The window contains a table with the following columns: <Vendor>, Web Service URL, <Logins>, Export Split Details, and Version. The table has one row with the following data: 1, Bayer Crop Science, https://ewsprd.us.f4f.com/F4FInbound, \*\*\*\*\*..., , and 5.0. Below the table are two buttons: Save and Cancel.

	<Vendor>	Web Service URL	<Logins>	Export Split Details	Version
1	Bayer Crop Science	https://ewsprd.us.f4f.com/F4FInbound	*****...	<input type="checkbox"/>	5.0

1. Within B2B Setup, navigate to *Setup / Grower Point of Sale (GPOS)*.
2. In the *Setup Grower Point of Sale* window, double-click the *Vendor* heading to choose the appropriate Vendor and select **Done**.
3. Enter *https://ewsprd.us.f4f.com/F4FInbound* in the *Web Service URL* column.
4. Double-click in the *Logins* column to select the *Agv. User* and enter the login information for each User accessing the GPOS web service.  
**Note:** The login information is provided by the supplier.
5. Optionally, select *Export Split Details* to transmit each split on the Invoice. If not selected, the total quantity of Product is submitted on behalf of the first Customer on the Invoice who has a GLN in the Customer master file.
6. Enter *5.0* in the *Version* column.
7. Select **Save**.
