

Lot Number Expiration Dates

Last Modified on 04/02/2026 8:19 am CDT

Agvance allows an *Expire Date* to be added by Lot Number to seed Products. Utilizing *Expire Dates* is optional and should be considered informational only, as Products can still be sold beyond the expiration date entered.

Prior to utilizing this feature, it is recommended that the desired level of lot tracking is determined and if necessary, *Lot Number Validation* is enabled.

- Information regarding the various levels of Lot Number tracking offered by Agvance can be found [here](#).
- Information regarding *Lot Number Validation* can be found [here](#).

Depending on company needs, an *Expire Date* can be added to a Product in three different ways:

- Add or Edit a Product in the Product Master File
- Add a Purchase Receipt or Purchase Invoice
- Add an [Inventory Adjustment](#)

Note: If a new Lot Number is entered on the Inventory Adjustment, the option to add the *Expire Date* is available when the adjustment is saved.

Product Master File

Expire Dates can be added to new or existing Lot Numbers in the Product master file.

1. Navigate to *File Folder / Products*, select the desired Product, and choose **Edit**. Select the *Seed/Lots* tab.
2. In the *Lot Number* grid, enter a date in the *Expire Date* column for the corresponding Lot Number. Choose **Save**.

Note: A *Quantity* cannot be adjusted in the Product master file.

Import Scale Ticket Show Lot# Save Cancel

3. Double-click *Product Name* and choose Products to add to the shopping cart. Existing Lot Numbers for the

selected Product display in the *Lot #* column. If applicable, select the drop-down arrow and choose the blank *Lot #*. Select **Done**.

The screenshot shows the 'Select Products' window. The 'Product Selection' tab is active. The 'Select a Department' section shows 'Bayer Products' selected. The main table lists several products, including 'AG36X6 RR2X 140M STAND'. The search bar contains 'AG36X6 RR2X 140M STAND'. Below the table, there is a table with columns for Product Name, Lot #, Quantity, and Units. The first row shows 'AG36X6 RR2X 140M STAND-FI' with Lot # 'ABC123456'. A dropdown arrow is visible next to the Lot # field, and a new Lot # 'ABC123456' is being entered. The 'Done' button is highlighted in orange.

4. Select the *Lot #* column and enter the new Lot Number. Enter a quantity in the *Received* column and choose **Save**.

Note: The option to add an *Expire Date* is only available when a new Lot Number is entered.

5. The *Add Lot Number* window displays. Check the *Expire Date* option and enter the expiration date. Optionally, select **Attributes** to assign an *Attribute Value* to the lot. Select **OK**.

The screenshot shows the 'Add Lot Number' window. The 'Dept ID' field contains '1200BY', the 'Prod ID' field contains '160799', and the 'Lot Number' field contains 'SSI2025'. The 'Expire Date' checkbox is checked, and the date '12/31/2025' is entered. The 'OK' button is highlighted in orange.

For companies utilizing the **EDN Import** web service, Lot Numbers on seed shipments are imported directly into the Purchase Receipt. When the PR is saved, the option to add the *Expire Date* to new Lot Numbers, as shown in Step 5 above, is available.

Purchase Invoice

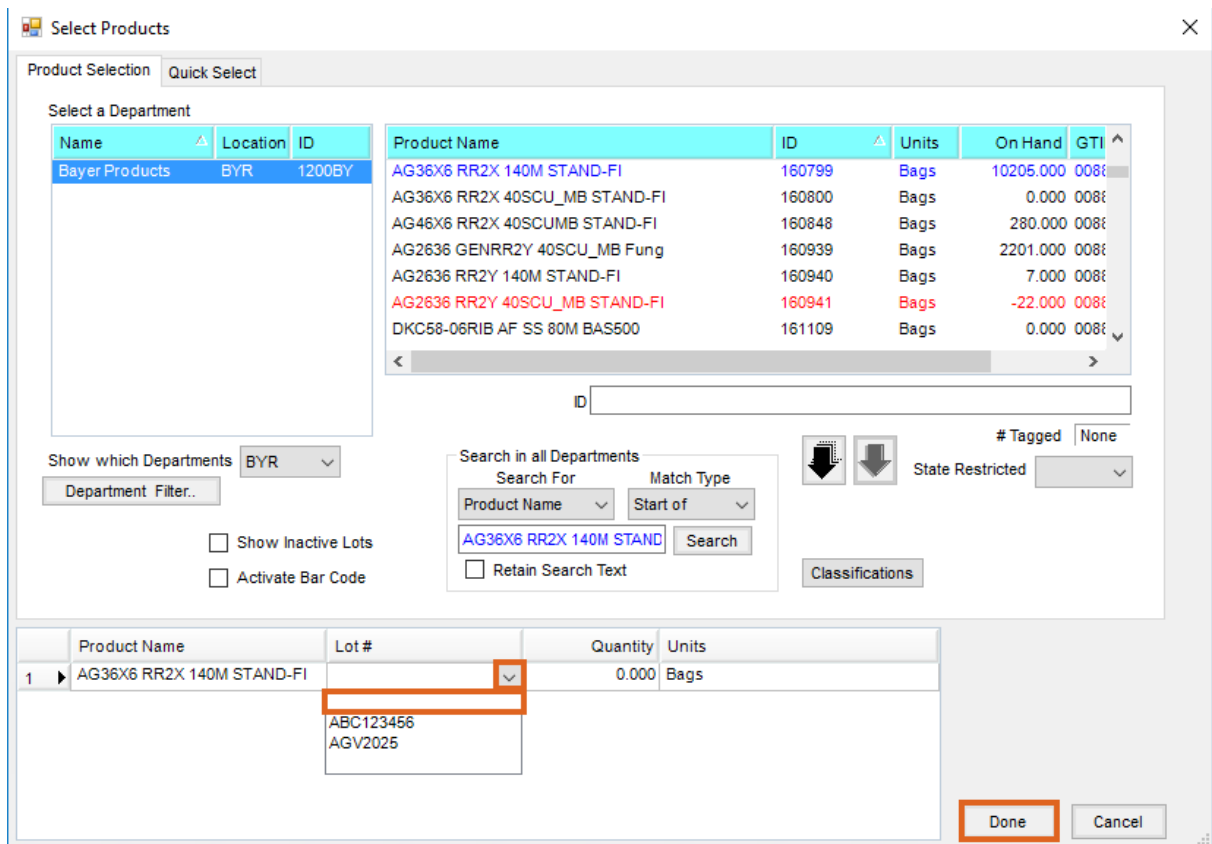

See [Purchase Invoices](#) for more information about the features available when creating a Purchase Invoice.

1. Navigate to *Accounting / Inventory / Purchase Invoice* and select **Add**. Choose the *Vendor*.
2. Enter the *Invoice #*, *Invoice Date*, and *Notes* as needed. If not selected, check the *Show Lot #* option to display the *Lot #* column.

Note: The *Lot Number* column is only visible on the *Direct* tab.

<P.O. #>	Ticket#	<Product Name>	Lot #	Quantity	S/Unit	U	STotal	<Container ID>	P	Discount	Deptid	Prodid	Origin City	Origin St	Dest City	Dest St	Sell
----------	---------	----------------	-------	----------	--------	---	--------	----------------	---	----------	--------	--------	-------------	-----------	-----------	---------	------

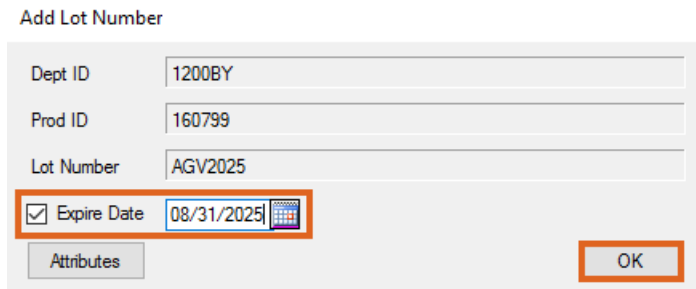

3. Double-click *Product Name* and choose Products to add to the shopping cart. Existing Lot Numbers for the selected Product display in the *Lot #* column. If applicable, select the drop-down arrow and choose the blank *Lot #*. Select **Done**.

4. Select the *Lot #* column and enter the new Lot Number. Enter an amount in the *Quantity* column and select **Save**.

Note: The option to add an *Expire Date* is only available when a new Lot Number is entered.

5. The *Add Lot Number* window displays. Check the *Expire Date* option and enter the expiration date. Optionally, select **Attributes** to assign an *Attribute Value* to the lot. Select **OK**.

Expire Date Visibility

Expire Dates are visible in various locations in the system.

Product Selection Window

1. Within a *Select Products* window, select the desired Product to add to the shopping cart.
2. In the shopping cart, right-click the Product line in the *Lot #* area. The *Product Information by Lot Number*

window displays.

The screenshot shows a software window titled "Add a Delivery Ticket". It features a header section with customer and ticket information, a central table with columns for product and load details, and a bottom section with various control buttons and dropdown menus. The table is currently empty, and a mouse cursor is visible over it. The bottom section includes buttons for "Recalculate from Gross/Tare", "Calculate Weight", "Recalculate from Load Amt", "Additional Info...", "Import", "Bookings", "Scale Ticket", "Agrian Rec", "Plan", "Sales Order", "Set Rec #s", "Apply Roll Ups", "Ship from Location", "Print Method" (set to "1. No Roll Up"), "Preview", "Save", and "Cancel".

Transaction Documents and Reports

Expire Dates print on the following documents:

- Invoice and Invoice load copy
- Delivery Ticket
- Consolidated Blend Ticket
- Purchase Receipt and Purchase Invoice
- Frozen Inventory Balances Count Sheet
- Inventory Adjustment
- Advanced Manufacture Inventory
