

SKY Customer Webinar

Last Modified on 03/25/2025 1:30 pm CDT

Explore how SKY Customer can help your agribusiness manage customer account details and assist your customers with their account questions. This webinar will provide a comprehensive overview of the SKY Customer features to improve efficiency using cloud-based customer management tools.

What You'll Learn:

- **General Overview** – Understand the core functions of SKY Customer and how it streamlines daily operations.
- **Managing Customer Plans & Bookings** – Easily track Plans, Contracts, and Bookings in one place.
- **Booking Signatures & Payments** – Secure digital approvals and seamless payment processing for hassle-free transactions.
- **Products, Fields, & Tanks** – Access critical Customer data including Product history, Field details, and Tank levels.
- **Seamless Communication** – Stay connected with your team and growers through notifications.

Who Should Attend?

- Current Agvance customers new to Agvance SKY or those looking for a refresher to take full advantage of the features of SKY Customer
- Agribusinesses exploring cloud-based solutions for modern, scalable customer management
