Windows Agvance User Permissions Dashboard

Last Modified on 04/04/2025 9:21 am CDT

Purpose

The Windows Agvance User Permissions dashboard displays each Agvance User and the Locations to which they have access or are restricted for each type of restriction.

The four types of restrictions based on Location are *Customer*, *Login*, *Product*, and *Vendor*. These restrictions are set up on the *General Restrictions* tab in the *Restricted Locations* area at *Hub / Setup / Users*.

The *Locations by User* tab shows the list of Locations and the restrictions for each User for that Location.

Details

The dashboard defaults to active Users.

A green checkmark (✔) indicates the User has access to that type of restriction in that Location.

A red X (✖) indicates the User does NOT have access to that type of restriction in that Location.
