# 7.0.28590 | 09.09.2025

## Accounting

### Setup

- **FTM-4455 / AFT and AFT CPA-005** – For Canadian customers, *AFT* and *AFT CPA-005* were added to the *ACH File Type* drop-down (*G/L* tab at *Accounting / Setup / Preferences*) for Grain Settlements.
- **FTM-4649 / Print Logo AR Invoice** – A new option called *Print Logo - Cloud* is now available on the *Logo* and *Alt Logo* tabs at *Accounting / Setup / Location Preferences*. This option is disabled for all documents other than *AR Invoice*. When enabled and a logo has been uploaded, the AR Invoice will include the logo on Invoices that are emailed and those that are sent to S3. When disabled, the address will print instead of the logo on those Invoices.

## Hub

### Setup

- **FTM-4533 / Filtering Agvance Users** – On both the *Select* and *Add/Edit User* windows, there is now the ability to filter for *Inactive, Active,* and *All* Users. The default is set to *Active*. The *User Signature* window for Purchase, Settlement Contracts, and Bookings will only display active Users who have signatures set up.
