# Inventory Snapshot Export

The Inventory Snapshot export, found at *Accounting / Transfers / Export*, is a Bayer seed-only export.

## B2B Setup

Navigate to *B2B / Setup / Inventory Snapshot* and enter the following:

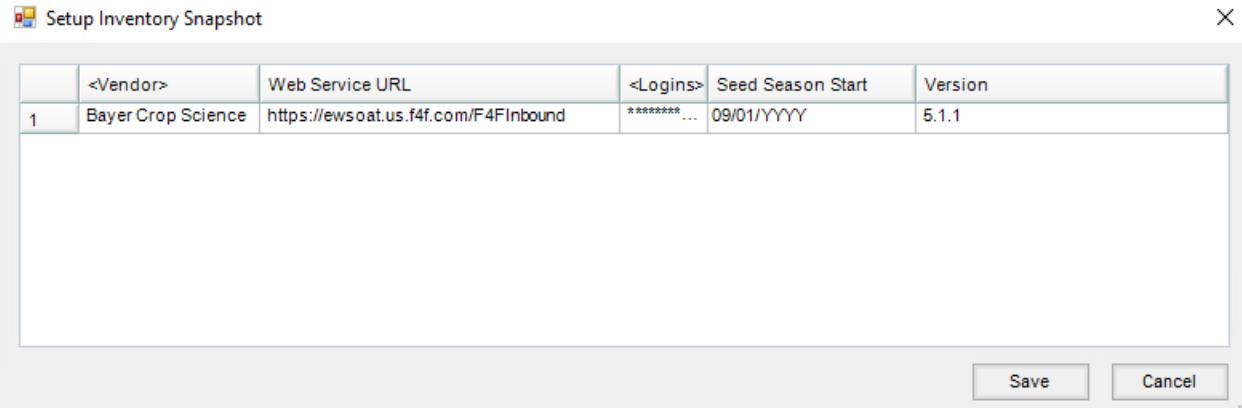

- **Web Service URL** – https://ewsot.us.f4f.com/F4FInbound
- **Seed Season Start** – 09/01/YYYY (replacing *YYYY* with the appropriate year)
- **Version** – 5.1.1

## Running the Export

In Agvance, navigate to *Accounting / Transfers / Export / Inventory Snapshot*. Indicate the Vendor, Locations, and Products to be included in the export. A prior year database can also be included. Choose **OK** to generate the export message.

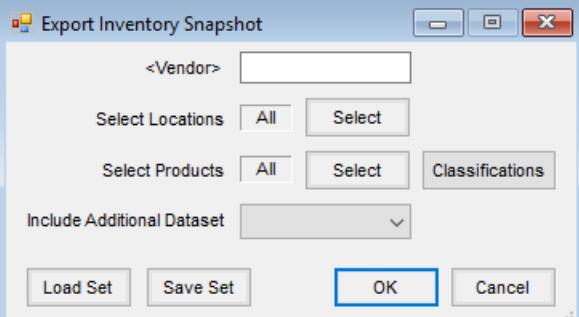

The *InventoryActualUsage* section shows the Amount on Hand quantity of the Product(s).
