- **SV-2396 / Delivery Ticket Printouts when Editing** – When saving a loaded Delivery Ticket, a window displays giving the ability to open and print the Delivery Ticket documents.
  - **Why** – This ensures paperwork is up-to-date when Delivery Tickets are loaded.
  - **When/Where** – The documents can be printed when editing and loading a Delivery Ticket.
  - **Action Needed** – No action required.
- **SV-2409 / Delivery Ticket Printouts when Adding** – When adding a loaded Delivery Ticket, a window displays giving the ability to open and print the Delivery Ticket documents.
  - **Why** – This ensures paperwork is up-to-date when adding loaded Delivery Tickets.
  - **When/Where** – The documents can be printed when adding and loading a Delivery Ticket.
  - **Action Needed** – No action required.
- **SV-2426 / Customer Selection when Adding Delivery Ticket** – The Customer Selection screen opens automatically upon adding a new Delivery Ticket.
  - **Why** – This prevents the need to locate where to add a Customer when entering a Delivery Ticket.
  - **When/Where** – This happens automatically when adding a Delivery Ticket.
  - **Action Needed** – No action required.
- **SV-2430 / DT Picked Chip** – If all Products on a Delivery Ticket are picked, the Picked chip (green with a checkmark) displays in the Delivery Ticket list.
  - **Why** – This indicator was not originally being shown in the Delivery Ticket list.
  - **When/Where** – This chip can be seen in the Delivery Ticket list when all Products on the ticket have been picked.
  - **Action Needed** – No action required.
