Energy February 2026

- **SKYR-858 / Vehicles Maintenance Page** – View details of all vehicles in your fleet.
    - **Why** – To view a grid list of all vehicles and details for each.
    - **When/Where** – *SKY Energy / Maintenance / Vehicles*
    - **Action Needed** – No action required.
- **SKYR-977 & 1154 / Plot Tank Feature at Add/Edit of Tanks** – Plot a tank from the *Map* view overlay, when adding or editing, by selecting Plot Tank. **Read more**!
    - **Why** – To provide a precise tank plotting process through a Map view rather than having to know the latitude/longitude or a customer's address.
    - **When/Where** – On the *Tank Add/Edit* form.
    - **Action Needed** – The *Add/Edit Tank* permission needs enabled to use this feature.
- **SKYR-1061 / Budget Invoice View** – Navigate to *Orders / Budget Billing Invoices* tab and select any **Budget Invoice Number** to open a new Invoice details page. The new page includes Tank and Customer information (with *Customer Name* and *Tank Serial Number* redirecting to their respective pages with required SKY Customer access), Invoice details, Product details and Pricing information.
    - **Why** – To provide an easy to read view of the Budget Billing Invoice details in SKY Energy.
    - **When/Where** – *Orders / Budget Billing Invoices* tab.
    - **Action Needed** – SKY Customer access is required to use the customer redirect links.
- **SKYR-1112, 1144 / Tank's Energy and Rental Split View on Add/Edit Tank Page** – Energy Billing Splits and Rental Billing Splits now have their own table view rather than being combined when viewing a Tank. Select the *Customer Name* and the system will route to the Customer page. Select the Customer *Attachments* option to view customer attachments.
    - **Why** –To view Split and Rental Billing information in an easy to read format and allow for access to additional information with Customer links.
    - **When/Where** – *SKY Energy / Tanks / Add/Edit a tank*
    - **Action Needed** – SKY Customer access and the Attachment permission is required to use the customer redirect and attachment links.
- **SKYR-1146 / Tank Energy Splits and Rental Billing Splits Allow for 4 Decimal Spaces** – Tank Energy and Rental Billing split details account for up to 4 decimal places.
    - **When/Where** – *SKY Energy / Tanks / Add/Edit a tank*
    - **Action Needed** – No action required.
