- **SV-2647 / Pickup/Delivered on Delivery Ticket** – When adding a Delivery Ticket, indicate if the Product(s) are being picked up or delivered.
 - **Why** – This helps identify how the order was fulfilled which helps resolve any questions that may arise.
 - **When/Where** – When adding a Delivery Ticket, the *Delivery Type* drop-down is available on the *Ticket* tab.
 - **Action Needed** – No action required.
- **SV-2655 / Priced Delivery Tickets** – Prices on priced Delivery Tickets remain intact when the ticket is edited and saved in Warehouse.
 - **Why** – Prices were originally being zeroed out when the Outbound Ticket was edited and saved.
 - **When/Where** – Delivery Tickets can be edited from the *Outbound* section in Warehouse.
 - **Action Needed** – No action required.
- **SV-2652 / Container Filter** – The Container **Filter** icon when adding or editing a Delivery Ticket works as expected.
 - **Why** – The **Filter** icon was not working as expected when navigating away from the screen and then returning.
 - **When/Where** – The **Filter** icon is available when selecting a Container on a Delivery Ticket.
 - **Action Needed** – No action required.
