The Grain Transaction Audit Log tab provides an audit trail of changes made to various Grain transactions. This dashboard gives the ability to review individual change records and identify who made the changes, what was modified, and when.

Details

The Grain Transaction Audit Log tab is grouped by Transaction Type. This tab does not contain Transfer of Settlement Ownership logs.

Each row represents a single change to a transaction.

Filter the dashboard by transaction number by entering any of the transaction numbers in the box and pressing **Enter** on the keyboard.
