

API 7.0.31400 | 10.06.2026

Last Modified on 10/08/2026 3:35 pm CDT

- **FTM-5290 / JE Number Filter** – The Journal Entry GET endpoint has the JE GUID, JENumber, and YearGuid added as optional filters to give the ability to filter down the request more than the created on or after which is still required.
- **FTM-5292 / Partial Pay Memo Invoice** – The Payment/PostBudgetPayment endpoint now allows Payments to be partially applied to Memo Invoices and allows Payments to be added to Budget Billing balances instead of requiring them to be applied toward Memo Invoices.
