Grain November 2026

Last Modified on 11/11/2026 9:02 am CST

- **GRAIN-582 / Import Shipment Destination Results Utility** – The **Import Shipment Destination Results utility** gives the ability to import Shipment/Direct Shipment Destination Weights and Grades using files from the end processor.
    - **Why** – This provides a quick and efficient way to update Shipment and Direct Shipment Destination Weights and Grades using end processor files.
    - **When/Where** – This can be found under *Outbound Utilities* in Agvance SKY Grain.
    - **Action Needed** – Role permission for this utility must first be enabled in **Agvance SKY Admin**.
