Analytics Dashboards - Supplier eLink

Last Modified on 11/18/2026 8:46 am CST

The following dashboards, found in Agvance SKY Analytics, can be helpful in managing seed processes.

- **Booked Seed** – The Booked Seed Dashboard provides an overview of booked seed quantities, showing how much seed is booked by variety by crop and by location by crop in the current fiscal year.
- **Dealer Order Summary** – This dashboard shows Dealer Orders at a company-wide level with *Departmental* and *Grower Order Breakdowns* for individual Products.
- **Product Lot Detail** – The Product Lot Detail dashboard provides information including Quantity, Product Lot Attributes, and Values.
