Analytics November 2026

Last Modified on 11/23/2026 8:38 am CST

- **AN-3930 / Applicator Audit Log** – The Applicator Audit Log dashboard now includes Applicators and Vehicles from the job assignment and also includes indication if the Applicator is the primary. If the job assignment includes the Applicator and Vehicles, it uses those values. Otherwise, it uses the Applicator and Vehicle from the Blend Ticket.
    - **Why** – This allows secondary Applicator data to be included.
    - **When/Where** – The Applicator Audit Log is found under *Agronomy* in Analytics.
    - **Action Needed** – No action required.
